May/June Prayer Focus - "Achievement"

Key Thought: "Achievement in God's eyes is far different from the way society views achievement."
Key Scripture: "Except the Lord build the house, they labor in vain that build it: except the Lord keep the city, the watchman waketh but in vain". Psalm 127:1
Prayer : Lord God, help my son/daughter _____, to grow in the grace and knowledge of our Lord and Savior Jesus Christ. Help him/her to understand early in life that true success is a matter of yielding one's heart, soul, and life to you. Lead him/her to know that through wisdom a house is built, and by understanding it is established. In Jesus Name. Amen. Delivery day date: May 30, 2009 at 12pm

Upcoming Events

May 8th- Fun Day May 22nd- Staff Appreciation Day May 30th- Family Golf Day June 1st- PTA Meeting/Clothing Swap

This Month's Highlights

Thursday 6/4 Graduation Ceremony @ 10am

Friday 6/5 Last Day of School

Pre K

Dear Families,
The children made a swift readjustment to school after the Spring break.
The children learned much this year, and I am sure you are proud of their progress. We are pleased with the progression of your child thus far. We will continue practicing our simple addition and learning the long vowel sounds.

Graduation is approaching swiftly! Please check your children's folder for further information. Mark your calendar for June 4th @10 A.M.

We enjoyed having your children with us in Pre-K this year, and we look forward to seeing them in our kindergarten next year. Continue reading with your children during the summer months. It will maintain their fluency and inflection.
~ Mrs. O'Neal

Kindergarten-

Praise the Lord!!!!!!!!!!!!

We are winding down and getting ready for our graduation.

We have almost completed the skills that will prepare us for first grade. During these last days, we will review the skills that we learned this year. Please complete all book reports by May 29, 2009. I am so proud of the progress each student has made this school year. As always keep us in prayer.

-Mrs. McCullough

1st Grade

The year is quickly coming to a close. We have learned so much academically. We also learned a lot about ourselves. In May, we will complete every book assigned to us in the first grade curriculum and spend the remaining days reviewing all that we learned in the review section of our books. We will take home our tomato plants and replant them at home. Our greatest leap forward will be a brief introduction to multiplication. Finally, we will make picture/writing journals of our year in first grade. Have a great summer!
~ Mrs. Phillips

2nd Grade-God's Word encourages us not to get weary in well doing, but to know that we will obtain ALL He has for us if we don't give up. As the school year nears an end, we are on one accord to press toward our mark. Maximizing exposure and changing mentalities. Jaz-meia is tenacious in her efforts to read with fluency and comprehension; she is surely getting there. Tamia is being stretched and challenged to tap into all her potential as she spends Reading and Arithmetic time with the 3rd graders-Keep going, girl! Bryson, Justin, and Delano have a healthy competitive wave to see who can multiply and add faster in the thousands place: A 2009 "Pact" in the making. Kelly is shaping up to be a mighty fine student of History and Social Studies – Yes, Madame President! While our traveling distance may vary, I've had to slow some down, and accelerate others, but we shall arrive at the destination as a team!
~ Mr. Love

3rd Grade-

Achievements:

2008 - 2009 was an awesome, adventurous, and productive year. We started off revisiting previously taught skills and then moved on the third grade expectations. Now, we are in preparation for fourth grade. We increased our vocabulary, reading comprehension and ability to identify new words. In Math, we are focusing on multiplication, long division, and equations. We are learning to become organized writers using correct grammar and punctuation. We also know various scientific and historical facts. Most of all, we have learned how to be spiritually and physically healthy children of God. We are headed for fourth grade with all our tools and knowledge.

Appreciation

The third grade parents have been very active this year. Attendance to field trips, parties, participation in career day, participation in breakfast gatherings, bringing scholars back for performances after school hours, news paper and magazine contest for recycling, completion of projects sent home, signing homework, sending scholars in clean crisp uniforms, and sending the scholars to school daily with their materials. We just want to thank our parents for all they do. As a teacher, I have called on my parents so many times for support and guidance in working with and developing their scholars academically, socially, mentally, and spiritually. I appreciate you guys so much.

Scripture Verse

- Hebrews Chapter 11:23 - 26
- We have gigantic faith!!!!!!!!!!!!!!!!!!!!

Area of Growth: We are growing in telling the truth and accepting responsibility for our own actions. -Mrs. Woods

4th Grade

Greetings,

The Fantastic Fourth Graders are on the move! **They have all made improvements during the third quarter! Congratulations!** We will continue pressing toward excellence!! We will learn about decimals, counting and making change, measuring temperature, solving equations and geometry. **PLEASE CONTINUE HAVING YOUR STUDENT PRACTICE MULTIPLICATION FACTS NIGHTLY!!** We will begin learning about prepositions, conjunctions, interjections, dictionary use and correct word usage. We are learning about Health and how we can stay healthy. In History, we are learning about An Age of Progress and will soon learn about countries Beyond our Boundaries, and The World Wars. The students did an excellent job on their State notebooks.
~ Mrs. Lewis
